RETESTING POLICY

Testers can achieve a passing score by answering at least 81% score. This cut score was determined by the NCBC Certification Board upon completion of a standard setting study facilitated by Excelsior's CEM.

Any tester achieving 80% or less has failed the test and has the option of retaking the test within one year at no additional charge at one of our other examination sites which can be found on the Certification Schedule tab on the BPNC.org website or they can schedule a time to take the exam at the NCBC office with the Certifications Manager. If an applicant desires to sit for the examination again after 12 months of their first registration (or examination) they will need to pay the registration fee again to take the examination. If the tester fails a second time, they must wait 6 months to retest and must pay a retest fee of \$295.
